

Student Production, Use of School Materials for Course Work and /or Projects

The cost for reasonable production of and use of materials associated with assigned course work or standard projects shall be provided as part of the instructional process. Students may be responsible for costs related to the loss of or inappropriate behavior and or use of school materials, supplies, or equipment. Said cost will be determined by school officials and shall be issued as a fine to the student. Fines appropriately established by the school principal are not subject to the Public Elementary and Secondary Student Fee Authorization Act.
